

Dear Parents,

Childline have developed an APP which promotes safe behaviour on social media and the internet. It aims to arm children with safe responses to unsolicited requests or content.

The APP is recommended by Oxford Health and is very easy and uncomplicated to use. We will also be promoting the APP in school.

What does Zipit do?

Zipit helps you get flirty chat back on the right track. It's packed with killer comebacks and top tips to help you stay in control of your chat game.

1. Save images onto your device and share them with your friends!
2. Share images on Facebook, Twitter, BBM or via email.
3. Find out how to deal with a sexting crisis.
4. Get advice to help you flirt without failing.
5. Call ChildLine or save the number to your phone.

You can also share images from Zipit through other apps like Whatsapp or Instagram, depending on what kind of phone you have and what apps you have on your phone.

Look at the APP yourself or with your child to decide if it is something you want to use or promote at home.
